greece has shouldered a heavy burden in the global economic crisis struggling with political and financial insecurity greece has also the most porous external border of the european union tasked with ensuring that the eu s boundaries are both secure and humanitarian and hosting enormous numbers of migrants and asylum seekers who arrive by land and sea the recent leadership and fiscal crises have led to a breakdown of legal entitlements for both greek citizens

and those seeking refuge within the country's borders on the doorstep of Europe is an ethnographic study of the asylum system in Greece tracing the ways asylum seekers, bureaucrats and service providers attempt to navigate the dilemmas of governance, ethics, knowledge and sociability that emerge through this legal process centering on the work of an asylum advocacy NGO in Athens. Heath Cabot explores how workers and clients grapple with predicaments endemic to Europeanization and rights-based protection drawing inspiration from classical Greek tragedy to highlight both the transformative potential and the violence of law. Cabot charts the structural violence effected through European governance, rights frameworks and humanitarian intervention while also exploring how Athenian society is being remade from the inside out. She shows how in contemporary Greece relationships between insiders and outsiders are radically reconfigured through legal, political and economic crises. In addition to providing a textured on the ground account of the fraught context of asylum and immigration in Europe's borderlands on the doorstep of Europe, highlights the unpredictable and transformative ways in which those in host nations navigate legal and political violence even in contexts of inexorable duress and inequality.

Anyone working or planning to work as an advocate for people who need help in dealing with public services will want to read this book. Advocacy is an area of increasing importance in service provision where new ways of working have to be found that increasingly create an enabling rather than a providing state. Advocacy has an important part to play in this shift based on the experience of real advocates speaking to power. It is written in a vivid jargon-free style as well as practical chapters on what advocates do using case studies from Scotland where important developments are taking place. The book discusses how advocacy fits into the broader scheme of things. Donnison describes and discusses examples of advocacy with chapters dealing with management training and evaluation of the work. The book concludes with a thought-provoking discussion of various strategies which help vulnerable people speak to power on more equal terms. Speaking to power will be particularly helpful to advocates working with people who have mental health or learning difficulties for doctors, nurses and social workers involved in advocacy and for students preparing to enter those professions. It will also be of interest to students of social policy and other readers concerned about Britain's broader social and political development.

the 1984 explosion of the union carbide chemical plant in bhopal india was undisputedly one of the world s worst industrial disasters some have argued that the resulting litigation provided an innovative model for dealing with the global distribution of technological risk others consider the disaster a turning point in environmental legislation still others argue that bhopal is what globalization looks like on the ground kim fortun explores these claims by focusing on the dynamics and paradoxes of advocacy in competing power domains she moves from hospitals in india to meetings with lawyers corporate executives and environmental justice activists in the united states to show how the disaster and its effects remain with us spiraling outward from the victims stories the innovative narrative sheds light on the way advocacy works within a complex global system calling into question conventional notions of responsibility and ethical conduct revealing the hopes and frustrations of advocacy this moving work also counters the tendency to think of bhopal as an isolated incident that can t happen here
